GLADIUS R56 ROTARY POLISHING MACHINE

GLADIUSR 56 ROTARY

ergonomically designed to reduce fatigue in long operations. Light, only 2.2kg. It is equipped with a 5" - 6" softenedged pads. Voltage Frequency: 220-240V 50/60Hz (CE/CN version), 100-127V- 50/60Hz (UL/JP version). Power Consumption: Rated 800w, (Maximum 1200w). Free Speed: 700-2500/min. Weight: 4-7/8lbs (2.2kg). Gear system: Two deduction levels.

ZENTOOL DUAL ACTION POLISHER

The ZENTOOL Dual Action Polisher represents one of the latest advancements in machine polishing technology. With an orbit (throw) of 21mm, the dual action polisher has evolved to become a leader in efficient cutting power while still maintaining the safe operation expected from a DA polisher. Compared to rotary polisher this machine achieves a far superior Finish with no holograms. Rotary polisher can cut easily but leaves too many paint defects. Painters use compounds containing Fillers to mask these defects.

Paint Protection

STEP 1 - CORRÉCTOR 2.0

HEAVY CUT COMPOUND

CORRÉCTOR 2.0 is a micro-abrasive, silicone-free and anti-hologram polish which, thanks to its Diminutive Short Abrasive Technology (D.A.T. Short) formula, guarantees perfect abrasion and cleaning. The product thoroughly eliminates marks from sanding P2000 and scratches, without covering them, even on scratch-proof, transparent coatings and without leaving streaks. CORRÉCTOR can also be used on protective, transparent films, without piercing them, effectively eliminating marks developed over time. It is also ideal for re-painted cars or for fresh paint. CORRÉCTOR achieves its maximum performance with medium hard sponge pads (orange) and was also designed for use also with random orbital sanders and microfibre pads.

Bottle 4500 ml

STEP 2 - ILLUMINA 2.0

ULTRA FINISHING POLISH

ILLUMINA 2.0 is the last step for finishing the polishing process, giving the surface gloss and sparkle. It is a silicone-free water-based product which, thanks to its anti-hologram formula, provides an excellent finish and a deep shine through its excellent capability of removing holograms and collateral damage generated during cutting. It can be used on protective PPF films to eliminate signs of aging without damaging them. It is ideal for use with both orbital and rotary polishers. It can be used with extreme comfort without creating much dust. The product is ideal both on hard and soft surfaces. The product has a deep action in eliminating marks of P2500 sanding without covering them, even on clear scratch-proof paint, OEM and repainted surfaces.

Bottle 250 g
Bottle 500 g

STEP 3 - SPLÉNDIDA

THE LAST STEP

SPLÉNDIDA: wax sealant has dual function: it is a perfect silicone-free sealer and an extra-gloss finish wax, which gives an extremely silky touch for more effective and rapid UV protection of all car surfaces. SPLÉNDIDA is a blend of natural and synthetic wax: its densely reticular polymers protect the paint from external agents. It gives the car a strong visual impact and effectively protects it against dirt with its perfect repellent effect. SPLÉNDIDA is quick and easy to use and can be applied manually or using a machine. Extremely concentrated and easy to remove, SPLÉNDIDA is a one-step sealer that creates deep brilliance and a mirror-like effect, also covering small scratches and leaving no residues on rubber or plastic parts.

Bottle 250 g

CUPIDO PAINT SEALANT

CUPIDO is a unique nano-composite sealant. Its formula is the bridge between a nano-ceramic product and a traditional sealant. The polymeric matrix generated by #CUPIDO has a structure comparable to a flexible elastomer that can anchor and adhere to the surface protecting it against abrasions caused by mechanical actions (washing glove) and both acid and alkaline chemical aggression.

Bottle 500 ml

CARLUX POLISH WAX

CARLUX; a mixture of quick, easy to use superpolishing waxes. Used by dealers due to its ease of use. Creates a silk effect and a long-lasting depositproof barrier. Does not contain abrasives. Suitable for all colours and types of paint, including latest generation paints. Does not smear even on dark cars.

Bottle 250 ml

CLAY

Performs a decontaminating action on the bodywork. "Mafra CLAY" is ideal for varnished or chrome surfaces. "Mafra Clay" frees any varnished surface of industrial pollution, traffic film, guano residue, insects, resin, ferrous residuals, brake lining traces on alloy rims, and cement residues. Quickly and easily removes bonded surface contaminants like overspray, bug debris, road tar, rail dust and fresh water spots. Effective and safe to use on many surfaces including paint, glass, plastics and metal.

SHERLOCK

It is a swirls identifier. Its low volatility allows maximum cleaning, ensuring perfectly cleaned bodywork, degreased from oils and silicones. The product removes any type of lubricating oil and polish, highlighting the underlying imperfections without whitening the paint. Exclusive and super-micro abrasive technology helps in locating swirl marks on the metal body. Usage of this product leaves best in class finish onto the surface.

AVAILABLE FORMAT 2 l

ODORBACT OUT CAR AIR CONDITIONER SANITIZER

It removes bacteria, germs, and fungi, eliminating the foul odours that are formed within the air-conditioning system. A simple press on the spray valve to distribute the product. This strong bactericide agent sanitizes and cleans your car air conditioning system in 10 minutes! Instantly cleans and disinfects the air-conditioner coils & ducts. Achieves long-term effectiveness by disinfecting and cleaning the point of infection.

150 ml

PASTA ABRASIVA DELUX RUBBING PASTE

Removes scratches, surface lines, oxidation and stains from any kind of paint. Quickly removes any kind of imperfection from the bodywork. Polishes and protects all chromed parts. Ideal for painted bumpers. Suitable for bodywork. Provides High Gloss Finish & Revives Dull Finishes. Protects painted surface from rust.

200 ml

IDROSTOP SPRAY WATERPROOFING FABRIC SPRAY

It is a super-hydrophobic fabric spray formulated to protect the valuables from any sort of damage caused due to uncertain spillage and stains. Our Nanotechnology-enabled fabric spray protects multiple products of car including mats, seats and other upholstery. One coating of this waterproof spray would make the fabric hydrophobic and prevent unwanted stains and dirt to settle. Ensure the surface is completely clean and further dried where it is to be applied. Allow the fabric surface to absorb the complete solution.

300 ml

REGÉNERA HEADLIGHT KIT

Yellow and discoloured headlights are not only unattractive but also impair visibility and compromise safety at night. Mafra has a solution to it: a lens renewal kit designed especially for the cleaning and maintenance of headlights detailing centres. The Kit comprises a random orbital sander, abrasive sanding discs of various grades, and polish for glass and polycarbonate to be used with a cleaning pad. Headlights faded by the effect of pollution can be restored by eliminating the layered oil deposits.

REGÉNERA HEADLIGHT KIT PROFESSIONAL

REGÉNERA HEADLIGHT KIT restores worn, foggy headlights for improving illumination and visibility while driving. Crystal clear results with this amazing professional headlight restoration kit. This long-lasting chemical formula gives continued protection from UV rays and other contaminants. This restoration kit is a bunch of professional-quality products uses a system of certain light abrasives to maintain cars looking amazing and saves money vs. replacing it to the expensive lenses. This easy-to-use kit gives clarity, durable and long-lasting protection in less time.

REGÉNERA VIEW HEADLIGHT CLEANER

This product restores the brilliance and clarity of all kinds of front optical units made of acrylic material and polycarbonate. Its formula, based on water-resistant polymers, removes even the slightest traces of oxidation and the chemical contamination on the surface. For highly contaminated plastic materials, a treatment cycle using REGÉNERA HEADLIGHTS KIT needs to be carried out. This headlight cleaner is the best suited product for faster and easier restoration of faded headlight which improves your visibility.

250 g

LUBRIGRAPH ANTI RUST COATING

It is a protective liquid, especially suited to the treatment of vehicle's underbody. It eliminates suspension springs squeaking and prevents the damaging effect of salt and rust. LUBRIGRAPH does not drip and is not removed by water, thanks to its exceptional holding power and strong water-repellent features. The special liquid LURIGRAPH solution is free of bitumen substances and remains stable regardless of the application temperature.

600 ml

PISTOLA PER LUBRIGRAPH GUN FOR LUBRIGRAPH
